FUND

The Green Climate Fund and Green Investment

Jiwoo Choi

Head of Financial Institutions and Structured Finance

Green Climate Fund

GREEN
CLIMATE
FUND

Vision

"A new global fund created to support developing countries take on climate action by investing in low-emission and climate-resilient development."

GREEN
CLIMATE
FUND

Resources

- USD 10.1 billion in signed pledges
- 50:50 split between adaptation and mitigation
- Geographical balance
- 50% of adaptation resources for SIDS, LDCs and African States
- USD 130 million for Readiness support, incl. adaptation planning
- USD 40 million for Project Preparation

GREEN
CLIMATE
FUND

8 Strategic Results Areas

With a focus on...

- Impacts
- Paradigm-shift potential
- Crosscutting adaptation-mitigation benefits
- Sustainable development co-benefits

GREEN
CLIMATE
FUND

Six Investment Criteria

Against which proposals are assessed

Impact potential

Potential to contribute to achievement of Fund's objectives and result areas

Paradigm shift potential

Long-term impact beyond a one-off investment

Sustainable development potential

Wider economic, environmental, social (gender) co-benefits

Country ownership

Country ownership and capacity to implement (policies, climate strategies and institutions)

Efficiency & effectiveness

Economic and, if appropriate, financial soundness, as well as cost-effectiveness and co-financing for mitigation

Responsive to needs of recipients

Vulnerability and financing needs of beneficiary in targeted group

**Status of the GCF portfolio
and private sector
approved projects**
